IN-PERSON

Proximal Humerus Fractures: when to plate and when to nail

Tübingen, Germany
08th - 09th September 2021

 **ZIMMER BIOMET**
Institute®

BioSkills

Our continuum of education offers a vast range of opportunities to health care providers to learn, interact, understand and share knowledge about our products, services and about surgical philosophies through a variety of modalities.

Life is all about activity. At Zimmer Biomet Institute® we therefore believe our delegates should play an active part when learning about new products, surgical techniques or the like. Get your hands and brains on human specimens, sawbones and instruments to deepen your knowledge and enhance your skills!

The specific course objectives include:

- Discuss appropriate patient selection, indications, approaches and implant use
- Plating & Nailing principles & techniques for proximal humeral fractures
- Analyze treatment failures and recognize possible pitfalls in treatment

The Zimmer Biomet Institute wishes you a valuable and enjoyable training with us.
