BioSkills

Zimmer Biomet Institute® provides a wide range of educational experiences to healthcare professionals so you can learn, interact, understand and share knowledge about Zimmer Biomet products, services, techniques and technologies through different modalities.

Are you keen to take an active role in learning about the latest products, surgical techniques and technologies? Train your hands and mind with human specimens to enhance your surgical expertise and deepen your knowledge.

The specific course objectives include:

- Recognize the importance of determining the cause of primary implant failure
- Understand the indications and evaluate the different options available using the Persona knee revision system
- Investigate solutions and techniques around fixation and bone loss management
- Perform revision procedures safely and effectively on anatomical specimens
- Get practical advice from our expert Faculty for your practice

The Zimmer Biomet Institute® wishes you a valuable and enjoyable training with us.
