Hip

## Hip Revision using the ASI Approach

Institute for Orthopaedic Research and Training (IORT)

Leuven, Belgium

11<sup>th</sup> - 12<sup>th</sup> June 2024

 **ZIMMER BIOMET**  
Institute®

---

## BioSkills

Zimmer Biomet Institute® provides a wide range of educational experiences to healthcare professionals so you can learn, interact, understand and share knowledge about Zimmer Biomet products, services, techniques and technologies through different modalities.

Are you keen to take an active role in learning about the latest products, surgical techniques and technologies? Train your hands and mind with human specimens to enhance your surgical expertise and deepen your knowledge.

The specific course objectives include:

- Review the rationale for the ASI Approach in the specific context of Hip revision
- Evaluate femoral and acetabular defects according to the Paprosky classification
- Identify which defects can be addressed using the ASI approach
- Discuss pre-operative planning and formulate a surgical plan
- Assess surgical key points including cup positioning, Approach extending, and implant positioning
- Review surgical tips from expert faculty that will be beneficial in practice

The Zimmer Biomet Institute® wishes you a valuable and enjoyable training with us.
