# Masterclass

## Personalised Knee Circle

### Course Venue

The Hoxton, Rudolf-Sallinger-Platz 1  
1030 Vienna, Austria

### Date & Time

Monday, 26<sup>th</sup> May, Start: 14:00  
Tuesday, 27<sup>th</sup> May, End: 13:30

### Course Objectives

- Integrate Technology in Personalized Knee Arthroplasty: Understand the role of technologies in pre-, intra-, and post-operative phases of knee replacement surgeries.
- Enhance Decision-Making: Utilize data from pre-, intra- and post-operative technologies to make informed decisions to personalize knee arthroplasty procedures
- Collaborate and Innovate: Discuss and share best practices with peers and faculty to embed advanced technology in personalized knee replacement practices.

### Target Audience

Active user of ROSA robotics for total knee arthroplasty and other ZBEdge technologies

### Language

English
